

Don't let Atos and the Government be the winners at the Paralympic Games

The Closing **AtoS** Ceremony

Brought to you by  UK Uncut and  DPAC

Incapacity Benefit payments are fraudulent, but the government want to cut welfare spending by 20%. And instead of helping to get people into work, the government are closing workplaces for disabled people.

The Government and Atos don't give a toss about disabled people. This is about making ordinary people pay for a crisis caused by the bankers. It's about making disabled people pay, instead of super-rich tax dodgers who cost us over £25 billion every year. This is an ideological attack on the welfare state; these cuts are a political choice. But we're fighting back.

The Government claim that the welfare system is being abused - this just isn't true. Less than 0.4% of

Atos are making millions of pounds enforcing the government's unnecessary cuts. It's up to all of us to fight back, defend our welfare system, and demand the alternatives. Let's show them that we do give a toss.
